Lonisiana. Globe.

The proprietors of the Eckford Line would particularly call the attention of the Merchants of Wisconsin, Himots, and other Western and South-western States to the superior Sacillies of their line for transportation to, and from, the ports on the Upper Lakes. The above line of Steamboats runs direct to our Dock, at Buffalo, and all goods contracted by this line for the Upper Lakes will be shipped (timless otherwise ordered or contracted) by Stansboats, find Propellers) with but one, or possibly two exceptions. The Eckford is the only Line not interested in, or committed to, a Propeller Upper Lake Line; and in endeavoring to sustain a line of Stemsboats on that route, the Proprietors hope to receive the support and patrotage of the Merchants of the Wistern States, when interest demands the continuance of a line of such a class of Boats. Boats leave New York and Buffalo daily.

For days of salling of Steamboats from Buffalo and Chicago, see advertisement in another part of this paper.

EMPIRE INSURANCE COMPANY, Union Springs, N. Y.

CAPITAL.

CAPITAL.

The Directors of the Empire Insurance Company feel confident that the plan of Insurance adopted by them will meet with a hearty response from a discerning public. Our Charter and By-Laws require that the applications received shall be dis indeed into two or more classes. Durelling Houses, and property of similar hazard, only, can be lineared in the First Class, excluding Taxerus, Worksshops, School-houses, Sembaries, Churches, and other kinds of hazardom property, usually taken in the Socialide "Farmers Companies," or "Farmers Departments." This will render the Empire, emphatically a "Farours Companies," or "Farmers Departments." This will render the Empire, emphatically a "Farours Companies," or "Farmers Departments." This will render the Empire, emphatically a "Farours Companies," in the following summary of their plan of operations:

1. Folidees will be divided into distinct Classes, the funds of each class being kept separate, and each paying its own losses. The notes given in one Class are not liable for losses the appending in the other.

2. Any applicant may, at his option, pay adefinite sum in full for his insurance, in then of giving his note.

3. The First Class to consist of dwelling houses and other farm buildings and personal property therein. Not more than two-thirds of the value of any building to be Insured; but the personal property therein may be Insured to its cosh value.

4. The Second Class to consist of Churches, School-houses, Seminary buildings, Workshops, Tavetus, Stores, Milis propelled by water power, &c., and personal property therein.

5. Not more than \$5000 will be taken in one risk. is therein.

5. Not more than \$3000 will be taken in one risk.

6. Steam Mills of all kinds, Distillories, Cotton and Woolen Factories, Fowder and Di Mills, Furnness, Mackine Shops, and other extra Inzardous property will not be taken in this company.

7. This Company will hold itself responsible for the correctness of all surveys and other official acts of its, authorized agents, thus ending all cavit as to the technical correctness of surveys, and the consequent liability of the Company.

can be made. In arranging their Rates of Inzard, and the kinds of property to be insured in each class, they have sought to secure sufficient cosh premiums to meet all loss each their best of the small notes taken are Roserve Fund, which have the Company perfectly safe against all which such cosh of the Company perfectly safe against all continuencies.

NEW YORK MUTUAL BENEFIT ASSOCIATION, Union Springs, N. Y.

THIS Association is formed for the mutual relief of its members in case of sickness or accident. A careful examination of its principles, and its beneficent objects, is respectfully solicited. The character and standing of the Board of Directors is a guaranty that the money received will be safely preserved, and faithfully devoted to the objects proposed. The progress of HEALTH INSURANCE, within the past few years, in localities where its principles have been understood, and its beneficent results practically seen and folk is unparabled.

Men are literally binding themselves together to be a one another's burdens. No kind of Insurance can be no getterally useful as that of Health; for most people are dependent upon it as the capital which enables them to procure the means of livelihood. Hence, when by disease or architent this is gone, all is gone; and either an unpleasant dependence on friends or poverty and pauperism, is the consequence. It is not presumed that accident or the ratages of disease can be prevented; but by a wise forethought, a foundation may be provided, which, when the hand of affiction does come, will soften its asperitles, and secure a comfortable support for yourself or family.

Conditions of Membership.

Conditions of Membership. A CENTIFICATE OF MEMORIPHIE will be forwarded on payment of \$4,50 Admission Fee, and the first annual deposit mentioned below. Each member will be entitled to a Weekly Benefit during the time disabled by sickness or accident from attending to his ordinary business or occupation. Persons from 14 to 09 years of age, of ordinary leatht and good habits, may become members on the following conditions:

Persons over 50 years of age-\$2,50 will draw \$2 weekly benefit. \$3,75 " \$1 " \$5,60 " \$1 " \$6,50 " \$5 " Twenty-the cents will be charged, in addition, for a re-moval of the Certificate. Each monther will be furnished with a copy of the Arthéless of Assectation, and a monthly report of its financial condition, and of the dologs of the DIRECTORS.

THE OSIGI ORINGE.

HIDGES A subscriber writes that he is perfectly aware that the Prune Farmer has published incusareless matter on this subject, but that he eannot look up and pick out of it precisely what he wants, which is, some plain directions given short-hand, to which he can refer, and thereby go ahead. We are reminded too that we have on our list a great number of new readers, to whom all the past, printed in these pages, is treek. At the risk therefore of going over hard trodden ground, we will ofter, as succinetly as possible, some practicable directions, rather in the form of direta, as the courts say, for the guidance of such as have lettle or no experience, learing reasons to be looked for in past pages.

possible, some practicable directions, rather in the form of dieta, as the courts say, for the guidance of such as have little or no experience, leaving reasons to be looked for in past pages.

First the Plant—In all intitudes where it will sound the Osage Orange is the quickest and bestetioticken, most formidable in its spines of any among us, and in all other respects equal to any. The precise places where it can be relied on a learly enough, are not all discovered yet, but from what we can learn it will endure the windreast a north as this parallel of latitude, and along the Rock and For rivers somewhat further something will never heless depend on the way for its grown. If cultivated slowly, and made to input well, being out back and thickened, it will stand cold much better than if stimulated and allowed to choot up in long straggling brush. North of where it will grow, we still ching to our old praference, the Buckthorn. The Souring—First, it will be necessary to get; old seed, but as the buyer cannot know much about in advance he will have to risk with the set of such say rety as he is supplied with. Sow a cirly as the weather is settled and the ground warm. Soak the seed in topid water afloing while, say some three or four days, pouring off then the water but allowing the seed to be well, keeping it in a warm room for two weeks, unless it begins to crack and sprout in which case sow immediately. Sow the seed in a bed completely prepared, as for letture or pass, in drills about as thickly as pears, or perhaps a trifle thicker. Let them stand a real, when they will be ready for the hedge is to be planted must be cultivated. That is a strip of lard of say four or five furrows wide should be roken in senson, and got ready as for coin—Hedge plants will no more grow in the sod than any cultivated crop. The last ploughing of it should be done a few days before the setting of it and it is will preaction also the town of the preaction of so the plants, and the row to a length of six of the plants, and the preact

Plants and trees thus trenched will start much Plants and trees thus trenched will start much earlier than when planted at one.

When needs to plant, or when the bads have expanded, and the leaves are half an inch long, we consider the plants in the bet condition to set. We have precised several modes of transplanting and will recommend the one we think the most expect has easy and certain. The implements used are a help of the extransplanting trowd, and a riske with non-teeth, my light strong cord will answer for a line but so nothing like a strong of all misself it than he stretched to the aid of set much on it with red pant, the distance of all you wish to set the plants. It should be it has ten rod long for convenience. The ends are to be trid to stiff stales three or tom feet long, and three unders walt trapering towards the end in monoral shape. It should be a fourth of an inch tink in the middle, and tapering to an eige it the after, and in order to cour may woul will, it must be ground and well polished a curved should is uttached to the upper (ed., en which a wooden handle is pleed house and the time when a wood in handle is pleed house and the time when a work the ground is most and the measure death, we intered to the time. end to the trowel and in a line with the edges. A time when the ground is most and the weather eleids as priterable for the planting—When all sixely for the work reset the sakes (if they have not been left standing) who cather first stood it the cue's by these set is many intervening stakes as may be necessary exceely in range, do not forget but if a be may of the hidge depads go till out less inghiess of the line—Rase if ending do not less inghiess of the line—Rase if ending do not less inghiess of the line—Rase if ending do not less inghiess of the line—Rase if ending do not less in the distance taking out the courser cloud. As for bout the distance the bed, e him will extend, struck the line tight and set if exceed in the ministrated long the line, will serve to keep it steeds. As it is esset to will on your knees you will therefore require theck pals on them. Take the trowel in one hand, place it opposite a spot and facust it down its whole length press it on one side with a twist, and with the other) undiment the plant, 2 in the see, its time of sund on the nuesa.

twist, and with the other had insert the plant, 2 in ches deeper than it stood in the miss.)
Raise the trowel and put it down, an inchirom the plant as deep as before given to twist towards the plant, which will fasten it at the bottom and in this way proceed to the end of voir line when another section may be roled, and the his removed. Finish by treading finily each side of the plants, and you help will be planted on securitie principles.

The rem index of the work will consist principally in cultury though the weeds should be left flown by calline in the hedge is out of the way. The entirity should be commenced as soon as the plants nevig nearly middrwny. The Osnge may be cut they time, and will immediately should out and grow as if nothing had happened. Listen to rotall about plach ago berding down but cut. The ist season, perhaps one cutting say about the first of Argust, would do, but the second the hedge should be cut buck thee times at least, once in the sping before it states orce in June, and once in Argust. This cutting is what makes the hedge it will cause it to thick in pit if the bottom, till it is as imprevious as a sone wall.

The first cutting sho l'd be within two or three inches of the ground, the next to within six inches of the first, and o on leving inhoust six inches higher each time. The cutting may be done with a seither inches or is pluching instrument, sold at the Agneulturd. Hardware stores—first accomplished with goat ripidity, a man will ent indice of it in a dig.

Those who allow their indice after setting to take error of themselves, and to spindle up in orbitals must not complain it in the Osige Orange will not reak a helpa, any more that those who sow wheat in the prince grass, that what will not grow on the prince—Practice Farmer.

It is not yet too late to land, and creats who wish to do so can obt up plants or steds of lines.

vish to do so can obtain plants or sicils of Tinos Hanton, on Wascensin-St

THE MESCHONES AND THE LOST ON LD -ME written a communication on the suject of the Partridge case, from which we the the following

larringe c. (e., from which we file the following closing pringgraph.

I am well satisfied that time will convince Mr and Mrs Patridge they have no paternity to the child. In the mentione I wish it to be distinctly understool that I freely admit the right of society to make a peaceable search for lost children among the Indians, or my other place, upon the land or in the water but should any Irwless outrage be attempted against the Indians, I shall certainly take the responsibility to subdue it. I I will add that I am auxinosity awaiting the action of Congress, in regard to the new home selected for the Me commices, and have good reason to expect they will be removed in the course of the beason. I am not ignoring that the white people cover their lands and want the Indians out of their way, and if we can excress a little patience, and forbermance, all that is desired will be accomplished. It is the interest and the happiness of community, as well of individuals, to live in peace, to cultivate harmony is worthy of all praise, but when we sow descond, we reaponly thorns.

Milwaukee Daily Sentinel.

TUFSDAY MORNING JUNE 15 1852 Rufus King, Wm H Watson & John S Fillmor

RUFUS KING & CO.

THE WHIG NATIONAL CONVENTION. The Convention which is to decide upon can adates for President or Vice President for the more to morrow, then sh the bulletings are not likely to tile place before I bursd w. The occanon is one which requires the gravest deliber ation, and the most wise and prudent counsel of natriotic men. Upon the result of the deliber tions at Baltimore depends. in a great measur the question as to whether the people of the ountry will choose to go back into the embrace of a party which has for many years chained the name, and made the boldest protession of Democracy, and which has, nevertheless, not tailed t belie those professions always, is opportunity has

The Convention will number among its delesites many of the pures, and wisest men of the this many of the panes, and wasset men of the state while and the panes, and we will not allow ourselves to so that excellent opportunities are afforded by loub, for a moment that it will act for the best this sale for good investments, and a speedy reloub, for a moment that it will act for the best One of two great men-Wivitzin Scorr or DANTEL WEBSTER-IS certain, we think, to be nominuted, is we have not the slightest idea that he Whig Convention will billet 49 times, and an illy, when on the eye of disbunding scale upon candulate whose very name is not be ird of unil over 30 billots are cast. Of the wo candidates nentroned, we have long ago expressed our preference, and we now repeat it, with the expression of om confider t belief that he will be nom nated for the Presidency Should it not be so, however, we ire too good Whigs not to a irrender our personal preferences, and fight the but learned amother stanlind Should the Convention nominate Mr Wobmir, certainl_ no prouder nan e can be placed at the held of our columns, and his magnificent intellecto disowers and long executence in state iffairs extron Shor al the Convention, however, as we afidently hope it will, rase for us the braner of Westing Scott, the call of patiest soldier-who never lost a buttle—who after a bit spent in the civice of his country straids before the world the first oldier of the 1_c- and v loca indicas deads. reat is they are ne obscured by his more brillian triumphs of peace-we shall then be more than ontent -- we shall consider the buttle is already

half won But be our leader whom he may, we were long is conserted for the war and with the great may of fatrictic Whi, substed, shall go into the conflict with the hope of real, the determination, to win rother victory for the country

BAD POLICY. We have the issue ordered at the continuance of We have the 1983 condered at the continuance of the first paley present by western wool growers and wool deteles of depending upon markets it so near tide water for the consumption of their worl. The control theorem is recessarily very heavy and is considered by portion of it returns to them in the form or clothes it looks as desired as sending our contous to be worsed up in 1 neighbors namification exploit use thousands the frequency and it checkings are true there themselves—as though nothing of this kind could be created by explicit, aded by himmans genuity and, it severince. If it is at all necessary to it insport wool from one put of the country to mother why may it not be done in its perfect and manufectured state is well as in the 1 w — In thela Romph Actes.

the rest — In flata Rough Notes

The words of the Rough Notes at the pelicy which transmits wool cast to be worked up instend of doing it it home, is a very common sort Example: If is or the same sort as that constants y expressed relative to the fath error committed. by the people ander the lead of free tinde politierens of sending then produce, not merely to the Atlantic scabourd, but core-s the water, where they do not get pinc enough for it to cover expenses, when by a faithful adherence to the Whig system of prefection to home industry, they imply have a home market it remonerating pures-Now again the Demorracy" have put another Judge Hubball appointed a special rank free Trade e including or the tirely for Press. dent. SEELEY, late of Chicago, has reconfly fitted up the large and commodious buildings, known as the National Hotel, at Remoths, Wisconsin, and is now prepared to receive patients, who wish to be treated on strictly Hydropathic principles.

DR. SERLEY has had several years experience in this mode of practice; and the universal success attending it, thus far, embles him to say with confidence to those who are exching the recovery of their health by this chickent method of cure, that he will guarantee as thorough and judiclous treatment as can be obtained at any Water-cure in the United States.

The house is sufficiently retired to make it pleasant, and commands a fine view of the Lake. The water used is soft and pure. For further information, address.

H. T. SEELEY, M. D., Jelo daw 6m.

NOTICE TO TAX PAYERS. THE Assessors of the several Wardt of the City of Milwallies will meet at the Common Council Rooms, from
9 to 12 o'clock, A. M. for one week from this date. Tax
payers are requested to come forward and examine the
Tax Roil. Should there have been any mistakes made by
the Assessors, they can now be adjusted; but after the Asessment Roil has been returned to the Common Council,
there can be no abatement of taxes for the last year.

Entered according to Act of Congress, in the year 1301, by J. S. HOUGHTON, M. D., in the clear's Office of the District Court for the Eastern District of Pennsylvania.

DIGESTIVE FLUID, GASTRIC JUICE

P R RP A R E D from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the gree Physiological Chemist, by J. S. Houghton, M. D., Philadel I of the Ox, after affections of narron recognition, and Privationized Chemist, by J. S. Houghton, M. D. Philadelphia, Pa.

This is a truly woulderful romedy for Indigestion, Dyspeysia, Janudice, Liver Complaint, Constipation, and Debility, Curring onler, Nature's own method, by Nature's own Agent, the Gastrie Julice.

137 Halfur tesspoontal of Parsus, infused in water will digest or discolve, Five Pounds of Roast Beef in about two hours, out of the stomach.

Persus is the chief element, or Great Digestive Principle of the Gastrie Julice—the Solvent of the Food, the Purifying, Preserving and Silmulating Agent of the Silmulation and Intestines. It is extracted from the Digestic Stomach and Intestines. It is extracted from the Digestic Stomach and furnishing a complete and perfect substitute for it. By the aid of this preparation the pains analysis of indigestion and Dyspepsia are removed, just as they would be by a leastly stomach. It is doing wonders for Dyspepsic, curring cases of Debility, Emmelation, Nervous Decline, and Dyspepsia Consumption, supposed to be on the verge of the grave. The Scientific Eddence upon which it is based, is in the highest degree Curious and Remarkable.

SCHEN **2*FRC EVIDENCE**.

Baron Liebig in his celebrated work on Anhand Chem-

preparation. There are few higher authorities than Dr. Perfer.

Dr. Combe, in Mayahadle writings on the "Physiology of Digestion," observes that "a diminution of the duagnantity of the Gastrie Julie is a prominent and all prevailing cause of Dyspepsia", and he states that "a distinguished professor of melicine in London, who was severely afficted with this complaint, finding everything over to fall, had resource to the Gastrie Juliec, obtained from the stomachs of living animals, which proved completely successful.

Dr. Graham, anihor of the famous works on "Vegetable Diet," saya: "It is a remarkable fact in physiology, hat the sconnells of animals, uncerated in water, impart to the fulfild the roogerty of dissolving various articles of food, and of effecting a kind of artificial dispetion of them in no wise disperts from the natural digestive process."

Professor Dungilson, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject—His experiments with Dr. Besumont, on the Gastrie Julies, obtained from the living luman stomach and from animals, are well known. In all cases,' he says, "digestion occurred as perfectly in the artificial as in the natural digestice."

Dr. John W. Draper, Professor of Chemistry, in the courred as perfectly in the artificial as in the natural digestions."

Dr. John W. Draner, Professor of Chemistry, in the Medical College of the Unitersity of New York, in his Text Book of Chemistry, page 386, says, "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

Dr. Carpenter's standard work on Physiology, which is in the ibrary of ever Physician, and is used as a Text-Book in all the College, is full of evidence standard to the agore, respecting the remarkable Digestive power of Pepsia, and the fact that it may be readily separated from the stomach of the calf or ox, and used for experiments in Artificial Digestion, or as a termedy for disease of the Stomach, and deficient secretion of Gastric Julee.

All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictonaries, describe the character and properties of Practs, and sinto many interesting details respecting it.

The fact that an Artificial Digestive Finit, or Gastric Julee, perfectly resembling the natural field, may be readily prepared, does not admit of question. The only wonder it, that it has not before been applie to the cure of indigestion and Dysopola—so naturally does such a use suggest teelift of the mind.

AS A DYSPEPSEA CURRER,

tion and Dyspersia—so naturally does such a use suggest treift of the mind.

AS A DYSPEPSKA CURER,
Dr. Hocourou's PERSIN has produced the most marvellous effects, in curingcoses of Deblity, Emaclation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of filts advertisement; but authenticated certificates have been given of more than Two Hundred Remarkable Cares, in Filliadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to Billious disorder, Liver complaint, Ferre and Ague, or badly treated Fewer and Ague, or badly treated Fewer and Ague, on the cylinder of Quiniuc, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating and the too free use of ardent spirits. It almost reconsiles Health with Intemperance.

OLD STORACH COMPLAINTS.

There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives Instant Helief! A single dose removes all the unpleasant symptoms; and it only need to be repeated for a short time to make these good effects permanent. Purity of Blood and Vigor of Body follow at once. It is particularly excellent in case of Naussa, Yomiting, Cramps, Soreness of the pile of the stomach, distress after enting, low, cold state of the Blood, Heatiness, Lowness of Spirits, Despondency, Eumentation, Weakness, tendency to Insantity, Suledie, &c.

Dr. Houghton's Pressus a sold by nearly all the dealers in the drugs and Popular Medicines, throughout the form—and in Prescription vials for the use of Physicians, and in Prescription vials for the use of Physicians, and in Prescription vials Agouts, describing the whole process of preparation and giving the authorities upon which the claims of this new remedy are based. As it is not seeret Romedy no objection can be raised against its use by Physicians in respectable standing and regular practice. Price One Bolker per bottle.

1.77 Observe this.—Every bottle of the genume Physic bears the witten signature of J. S. Hoccarrot, M. D., sole proprietor, Philadelphia, Pa. Copywight and Trade March request. fark secured.

Graefenberg Medicines HAVE YOU USED THEM?

A S popular medicines, prepared carefully and sclentifically, and adapted to the wonts of the American public, they have no superiors. They are emphatically what they nev represented to be, genuine, and irec from Hundry, introduct as much to vere act o tell. When once used, they are universally relied upon, and no Family should be without these truly valuable disk to Health. In many instances the regular faculty recommend and use them, such it their force over the prejudices of those to generally opposed to the circulation of fortexa Mentents. So Family Physician, in ordinary cases, in needed by those who own the Graefenberg Manual of Health, and strictly abile by its directions in the use of the medicines.

A word to the state is sufficient without the publication of certificates, which we have of the most fastering description always open for the inospection of the incredutions. We will enumerate in conclusion the various preparations of this Company, which may be found in every town in the State and throughout the bilion.

THE CHAPEENBERG SARSAFARHALA, is parely vegetable, no hig ability hands for the leader provided in the state and throughout the bilion.

THE CHAPEENBERG DYSENTERY SYRUP,—Public appropriate of the blood which are the seeds of should heaving an entire change in the space, by endeating those impurities of the blood which are the seeds of should heaving description has stamped upon it the character of perfect. It has checked the rawages of Choirm in its last stages, and for bowel compliains it has no equals.

THE GRAEFENBERG GREEN MT. OINTMENT—In reducing inflamion, healing intrus, bruises, and in parely careful in the facuration of a wonderful effect in invigenting a debilitated system.

THE GRAEFENBERG GREEN MT. OINTMENT—In reducing inflamion, healing intrus, bruises, and all injuries to the body, we can considerably recommend this sare to all as being most effections. In the Minute, and in the line of the course of the complex of the course of the complex of the complex of the confidency of

ted.

THE GRAEFENBERG EYE LOTION—An unpretending article, but one which meets with large sales in the West, and has been the humble means of reliceing thousands from intolerable pain arising from injured or discreted eyes. Try it.

THE GRAEFENBERG STERINE CATHOLICON—This is perhaps the most valuable medicino of this Company, insumuch as it reaches cases despaired of by the most safentile physicians. For Prolapsus Literi, and all camplaints incident to Females, it will be found a safe and specify remedy. Let no afficied known be deterred. for which and all the medicines are attached to each.

BITTERS. Prepared by Doct C M. Jackson, AT THE GURNAN MEDICINE STORE

AT THE OFRIVAN MEDICINE STORE,
190 Arch at, Philadelphia.
Their power over the above diseases is not excelled, if
equalited, by an other preparation in the United States, as
the cureattest, in many cases after skillful physicians had.
These Bitters are worthy the attention of invalids. Posacossum great virtues in the reculication of diseases of the
Liver an Uesser claude, overcoting the most scarching powers in wentuess and after toos of the digostave organs, they
are usthal safe, certain and pleasant.

are withal saft, certain and pleasant

RFAD AND BE COVITCED

[From the Boston Bee]

The Pidlor earl, Dee 3d Dr Hoodand's celebrated

Germin Bitters for the cure of Liver Complaint, Jaundice, Dyspeydia, Chronic on Arnous Debluty, is deservedir one of the most popular medicines or the day. These
Bitters have been used by thousants, and a freind at our
elbox saw in has hinself received an effectual and permanen, cure of Lice Complaint from the use of this remedy.
We are convinced that, in the use of these Blitters, the patient constantly game strongth and vigor, a fact worshy of
great consideration. Then are pleasant in tasks and medi,
and can be used by persons with the most delicate stomacha
with safty, indee any chromisances. We are speaking
from experience, and to the all need we said such their use."

Scort's Well-I

One of the best literary papers published, sall, August 25
Di: Hoopland of searc Bitters, manufactured by Dr
Jackson, are now recommended 1; some of the most prominent members of the inculty, as an article of much efficac; in cases of a made weakness. As such is the seas, we would advised in mothers to obtain a boate, and thus saw themselves much sickness. Jersons of del linated constitu-tion will but those listers advantageous to health, as we know from experience the salutary effect they have upon week systems.

That this medicine will cure Liver Complaint and Dyses is an a one can doubt, after using it as directed. It sets peculiarly upon the someon and inversit is preferable valued in all billous discave—the effect is immediate they can be administered to Females or infants with safety and reliable beneal, at any time IOOF WILL TO THE WAREA OF THE OPERING.
They have the written signature of C M JACKSON upon
the wrapper, and the mane blown in the bottle, without
which they are spurious.
